STARTERS

\$2 Tip Trick - \$25

The performer displays the front and back of a \$2 bill. After folding it up into quarters, the magician unfolds the bill to show it has changed into two \$1 bills! After showing the front and back of both of the \$1 bills, the performer then folds up the bills, then unfolds them to show they have changed back into the \$2 bill! The magician then displays the front and back of the \$2 bill once again! Here's a tip, perform this trick! You'll probably get a real tip. This is an audience favorite!

Bill to Matchbook and Bonus Full Burnt & Torn & Restored Match Routine - \$25

The magician displays a \$1 dollar bill, showing it on both sides. The performer then proceeds to fold up the bill when it INSTANTLY and VISUALLY changes into a matchbook! The magician then displays the matchbook, front and back, and opens the matchbook, lifting the matches to prove the bill is not hiding under them! As a bonus, you will also receive my complete reputation making Burnt & Torn & Restored Match Routine included! Talk about having money to burn!

Card to Cash - \$25

A spectator chooses a card and the magician bets the spectator \$1 he can find the card. After losing the card into the deck, the performer claims he has found the correct card, but it is shown to be the wrong one. After the card was shown on both sides, the performer INSTANTLY and VISUALLY changes the card into a real one dollar bill, which may be freely shown on both sides! The magician places the dollar into his pocket, then on second thought, gives the bill to the spectator to make good on the bet! It's a sure fire bet they will win!

No Dice - \$15

The performer displays a pair of dice. He casually tosses them into his other hand commenting that he is going to attempt to roll a 'zero,' something that has never been attempted before. The performer shakes the dice and rolls them onto the table. Upon seeing the dice, the spectators can clearly see that the spots on the dice have somehow vanished! The magician in fact has actually rolled a zero! What are the odds of that? Very good obviously indeed! Craps anyone? Why use dice to play a boring 'bored' game?

ENTREES

Ball Through Salt Shaker - \$25

The magician displays an empty salt shaker, unscrews the lid, and hands them both to a couple of spectators to have them examined. The performer then takes them back from the spectators, and screws the lid onto the salt shaker. Next, the magician introduces a small ball, and proceeds to cause the ball to penetrate right through the bottom of the salt shaker! This quick, visual effect will really leave the spectators scratching their heads! You'll have a ball performing this trick, and the spectators will have a ball watching it!

Chameleon Cards - \$20

Four red backed cards are shown face up, then, one at a time, they all take turns turning face down! Next, all four backs change to blue! Then as a kicker ending, all four backs change to four completely different colored cards! This is a triple whammy they never see coming! Plus, all four cards can then be handed out to the spectators for examination! Now, watch the spectators change colors! Don't underestimate the power of this simple, yet very strong and beautiful effect! This is lizard legerdemain!

Dream Deal - \$20

The performer displays four red backed cards, the Jack, Queen, King and Ace of Hearts. Then, all the cards turn face down, then, one at a time, the take turns turning back face up again! All the backs then change to blue, and then back to red again! As a killer kicker ending, all four faces of the cards change into the Ace of Hearts! This is a quadruple whammy they never see coming! Now watch the spectator's change colors! This is one of the strongest effects you can do with a few cards, if you're not playing with a full deck!

Electric Cards - \$25

The performer displays a few cards and asks a spectator to just think of any one. The performer puts a card in his pocket as a prediction, and places the rest of the cards on the table. The magician asks the spectator to name their card. The magician then shows his prediction to be correct, and then has the spectator then turn over all the cards on the table to show they have all changed into the same card to match the magician's prediction! Now have the spectators pick their jaws up off the table! You cheat, but you win!

Eraser Card - \$25

The performer displays a card he believes to have been the spectator's previously selected card, which turns out to be close, but incorrect. He then pulls out a blank eraser to erase some pips to make the prediction 'correct.' The card is then shown to have really changed into the correct prediction! AND the image of the card magically transfers to both sides of the previously blank eraser! Then as a killer kicker triple whammy ending, the playing card is then seen to have totally vanished right off the card, leaving the card completely blank! This fun little novel effect will erase the spectator's minds!

Vanishing Card Case - \$25

The magician is seen holding a deck of cards in the box. The cards are removed from the box, when INSTANTLY and VISUALLY the box completely vanishes all together! This effect can also be performed as a shrinking box effect, as the box is seen to have changed into a miniature box immediately after the cards are removed! Next a card, which may be signed, vanishes from the deck and ends up in the mini box! This effect will definitely shrink the spectator's minds! They will feel like they have been in a 'BOXing' match, thanks to this one two punch to their head!

Vanishing Ring Box - \$25

The magician borrows a ring from a spectator, places it into a ring box for safe keeping, which is then kept in plain sight for all to see. Next, to everyone's surprise, the ring box is then opened to show the ring has completely vanished! The ring is then produced from inside a lemon, a wallet, a wooden box, a nest of boxes, or an envelope, or wherever you would like! This is a very powerful utility prop used for vanishing any ring.

SIDES

Color Changing Sharpie & Vanishing Ink - \$25

The performer shows a red marker, when it INSTANTLY and VISUALLY changes to blue! The magician then clearly shows the writing on both sides of the marker. Then, with just a wave of the hand, the writing on the marker INSTANTLY and VISUALLY vanishes! The spectators will have to do a double take after being hit with this double whammy! This comes with some really funny lines to use with the effect. This is truly a 'magic' marker that will definitely leave a permanent and lasting effect on spectators!

Phoneless Cord - \$10

Before or during the act or trick, the performer acts surprised, stops and listens, and then realizes he is getting a phone call. He apologizes for the interruption, as he reaches behind his table, or into his case or jacket, and pulls out a phone cord. He comments, "It's my phoneless cord!" Unfortunately there is no one there. It must have been a crank call. This is always a sure fire laugh getter! Talk about phoning it in! Let's just hope they don't call back in the middle of your next set!

Security Tag Gag - \$15

The performer comments he just picked up a newly acquired shirt or jacket from the mall. The magician asks the spectators if they like it. Of course, the audience says, "Yes," so the performer then says, "Thanks! I'm thinking about buying it!" The magician then displays the security tag still affixed to the garment! If the audience says, "No," the performer remarks, "Oh, oh well, I was only thinking about buying it anyway!" You also receive a lot of other really funny lines that are guaranteed to get you sure fire laughs with this 'TAGnificent' little prop! Feel free to steal all the lines!

Sharpie Shocker - \$20

The performer puts away a Sharpie away after having had a card or bill signed, or some other effect requiring the use of a 'magic' marker. As an afterthought, the magician brings the Sharpie back out and proceeds to draw a line right down the spectator's shirt! Surprise! The shirt is perfectly fine! It must have been a 'fine' tip Sharpie! However, the illusion of a thick black line being drawn across the spectator's shirt is PERFECT! 'Don't worry, it is a permanent marker, but luckily the ink is not! Wives love this trick... not!

DESSERTS

Silver Cent - \$15

The performer borrows a penny from the spectator and proceeds to start gently rubbing the coin. The penny is then seen to INSTANTLY and VISUALLY change into a silver penny! This makes for a nice souvenir for the spectator to keep, show off, and talk about for years to come! This effect is one of those rare gems that keeps happening over and over again in the minds of the spectator long after you perform the effect. It gets people talking, and coming into your establishment to see the trick for themselves! Talk about job security! And for just one cent! You receive 10 silver pennies.

Three Card Monte - \$5

The magician displays three cards in a fan showing the faces. There are two red number cards, and a black face card in the middle between the two red number cards. A spectator is asked to remember the face card in the middle. The performer then turns the cards face down, and asks the spectator to remove the middle card, and place it face down on the table. The magician then asks if the spectator remembers what the middle card is, and to please name the card. The spectator names the card, then turns over the card to show it has changed into a completely different card!

Two Card Monte - \$5

The magician displays two cards, one face up, and one face down, and shows both sides of both cards. The performer then asks a spectator to name one of the cards. The named card is then placed behind the magician's back. It is then immediately brought out from behind the performer's back to show it has changed into the other card! The performer then shows the other card has changed into the card the magician had placed behind his back! This is a simple, yet powerful transposition or translocation effect that will leave the spectators spellbound! And it only uses two cards, since you're not playing with a full deck!
